Phishing & Security Awareness Training

Why is SAT important?

Security Awareness Training (SAT) is necessary in today's world. Do you know how to identify phishing emails? What would you do if you clicked on a phishing email and exposed your company to cyber criminals? We will help increase your knowledge and confidence when working online, and help you reduce the chance of an attack occurring in the first place using engaging curriculum that teaches you best practices of online safety!

Ease of Use

Automatic Reporting

Your progress is tracked and scheduled reports are sent out to administrators.

Quick Training Content

Training content is 5 minutes or less, so you can complete it and get back to your day!

No Account Needed

No need for a new login! Phishing and training is delivered to your inbox!

Key Features

Continuous Campaigns

We've created training to be fully continuous. You will receive training & simulated phishing emails on an ongoing basis to keep your cyber threat skills up to par throughout the year.

User Experience

We will keep you engaged with content that's delivered at the time of need, called *Learning Moments*. It's quick phishing training that makes learning easy and fun. The goal is to help you feel more confident while working online and to provide valuable content on a continuous basis.

**Phishing & Security Awareness Training**

Why Do You Need SAT?

Should I click on this email? It's a question you ask yourself multiple times during the day. We help raise your SAT intelligence by showing you what you need to know and do to stay on top of your cyber security game!

Phishing

We deliver fresh, consistent training to you in order to increase your understanding of what to be on the lookout for. After getting phished, we show you what you did, and what you should have done differently in the future to stay safe. It's not about punishment, it's about raising your awareness!

Training

Have questions about password management, device security, and working remotely? We've got you covered! Training is engaging and fun. Learn about these topics and many more in quick 5-minute training lessons, and then get back to your day!

Content

Training is delivered in various forms. We offer both fully animated and live-action content for SAT to keep you fully engaged. We have over 200+ training videos available so it's always fresh.

Compliance

Compliance is a must these days, so why not make it fun with our SAT platform? You need consistent phishing and security training in order to qualify for cyber insurance. Our continuous training platform satisfies the requirements for businesses' cyber insurance needs. We also satisfy *CIS Control 14*, *NIST 800-171,* and many more!
